About:

The brainchild of Cultural Association MoCA, Arte Laguna Prize is an international art competition dedicated to the visual arts, in particular painting, sculpture, photography, video art and performance, virtual and digital art. It was created to give the opportunity to art talents, more or less young, to emerge, to be noticed by the general public and by the jury composed of important names in the contemporary art scene, as well as to allow a democratic comparison between international artists.

The goal is to create an increasingly authoritative and influential system in the world of contemporary art by involving new players from year to year. Since 2006, a virtuous circuit has been created that sees many diversified realities as actors: Foundations, Museums, Galleries, Residences and spaces for art, Made in Italy companies and international brands, with which special projects were designed, then transformed in concrete opportunities for growth and momentum for the professional career of artists.
